## WW NDT SERVICES WELD SCHOOL

*"Let us take you to professional welding success"*

## WW NDT SERVICES WELD SCHOOL

Is a SENSE accredited learning institution that prepares student graduates for journeyman level positions as a Welder/Fabricator  
**Lab portions of the program include:**

- SMAW (shielded metal arc welding)
- GTAW (gas tungsten arc welding)
- GMAW (gas metal arc welding)
- FCAW (flux-cored arc welding)
- Metal Cutting Procedures and basic fabrication.

**Lecture portions of the program include:**

- Blueprint reading
- Welding principles
- Structural steel codes
- Welding inspection
- Understanding weld prints
- Quality control and safety.

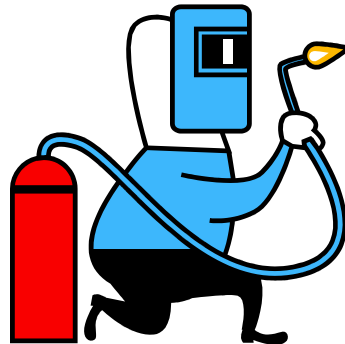

**Student applicants** must be 18 years or older with high school diploma or equivalent and be able to provide current I.D. in the form of a U.S. Driver's License, U.S. Military ID Card, U.S. Green card (US Homeland Security Permanent Resident card) or any Government-issued passport. Students must also provide a Urine drug screen upon admission to the school.

## MEET OUR INSTRUCTORS

Dale Webber offers over 30 years of experience in Inspection, non-destructive testing, project management, quality control and welding. Dale's experience includes; Five years as a Manager of Welding Quality Inspections at Space Explorations Technologies (Space X) Where he supervised and/or performed inspections. Preceding Space X, Dale served Seven years as a Lead Welding Inspector/Manager at FEI Testing and Inspection. Dale is now Co-Founder/Co-Owner of WW NDT Services INC.

Chris Walpole offers over 20 years of experience in inspection, non-destructive testing, fabricating and welding on structural steel buildings, bridges, dams, etc. Chris served as Lead Inspector and Structural Steel Manager for the Eugene and Corvallis office of FEI Testing and Inspection Corp. for over 5 years. In March of 2013 Chris became co-owner/Co-founder of WW NDT Services Inc.

## CURRICULUM

In this 420 hour/12 week, American Welding Society, competency based program you will be introduced to many of the welding & fabricating techniques being used in the welding industry today. This is a hands-on program where most of the instruction is based around class projects and practicing different welding techniques. You will also be exposed to national certifications that will allow you to go immediately into the workforce with acquired credentials. Competencies include:

- Occupational Orientation
- Safety and Health
- Drawing and Welding Symbol Interpretation
- Shielded Metal Arc Welding
- Gas Metal Arc Welding and Flux Cored Arc welding
- Gas Tungsten Arc Welding
- Thermal Cutting Process
- Welding Inspection and Testing
